

Claim for application #10,083,771
Applicant, Huey Thomas Crochet
Examiner, Kurt Rowan
Art unit, 3643

11. I claim a fishing weight comprising,
a smooth, elongated, cylindrical body, 24 times longer than
wide, made of
a dense malleable material,
said body having
a first end and
a second end terminating with
a hemisphere shape at both ends,
said body also having
a hole adjacent said first end being attached,
loosely, through by
an O – ring that is attached to
a swivel such that said O – ring and said swivel are integrally
attached to
a substantially short, angled portion means for causing a
spin maneuver by said weight upon impact with obstacles while
being retrieved,
said short angled portion terminating with
said first end and being defined, by
a bend, along said body, from
a longer straight portion terminating with said second end.

12. The fishing weight of claim 11 wherein said body is about 6
inches long and .25 inches in diameter.

13. The fishing weight of claim 11 wherein said body is made of
metal.

14. The fishing weight of claim 13 wherein said metal is iron.
